

Evaluation Paradigm Shift in LLMs

Stage I: Final Output

Evaluate only the final answer
(Final-output Accuracy)

I only score
the final answer.

Question

Final Answer (Select One):

A ☐ B ☒ C ☐ D ☐

Your Answer: **B**  **100/100**

 Focus: Final Output Accuracy

Stage II: Process

Evaluate the reasoning process
(LLM-as-Judge, Process Verification)

Let's inspect each
reasoning step.

Step-by-Step Reasoning

Step 1 
Step 2 
Step 3  Logical Error
Step 4 
Step 5  Logical Error
...
...
Conclusion 

 Focus: Process Quality & Correctness

Stage III: Task Closure

Evaluate end-to-end task completion
(Task Closure Rate, Sandboxed Verification)

DIAGNOSTIC SANDBOX

TASK
CLOSED

File state correct?

Yes 

CI/CD tests passed?

Yes 

Is secure?

Yes 

 Focus: End-to-End Task Closure

 From Answer Checking

 To Reasoning Verification

 To Task Completion Assurance
