Answer Generation (Transient)

Here is the answer
to your question:
...

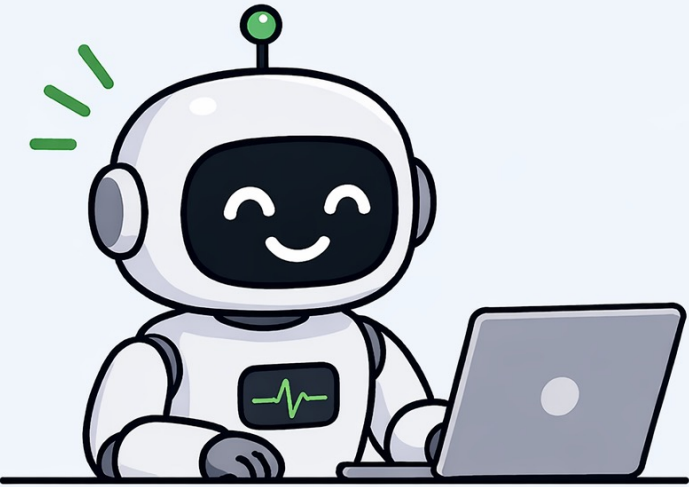

(Not Persisted)

✓

Workspace Substrate

Stateful, Persistent, Structured

Helper Robot (Happy)

Persistent Workspace (Execution Substrate)

1. File System (Persistent)

workspace/

- src/
- docs/
 - design.md
- results/
 - output.csv
- README.md

2. Terminal (With History)

bash

```
$ ls
README.md  src/  docs/  results/
$ cat docs/design.md
# Design Overview
...
$ python src/analysis.py
Analysis complete.
Results saved to results/output.csv
$ ls results/
output.csv
$
```

3. Execution Logs (Persistent)

10:21:03	INFO	Started task
10:21:10	INFO	Loaded data
10:21:45	SUCCESS	Analysis complete
10:21:46	INFO	Saved results
...		

Isolated • Secure • Persistent • Reproducible

Work-Oriented Task Delivery

(Persisted & Verified)

- State is Preserved

History is Available

Artifacts are Persisted

Results are Verifiable
