

1 Ad-hoc Prompts

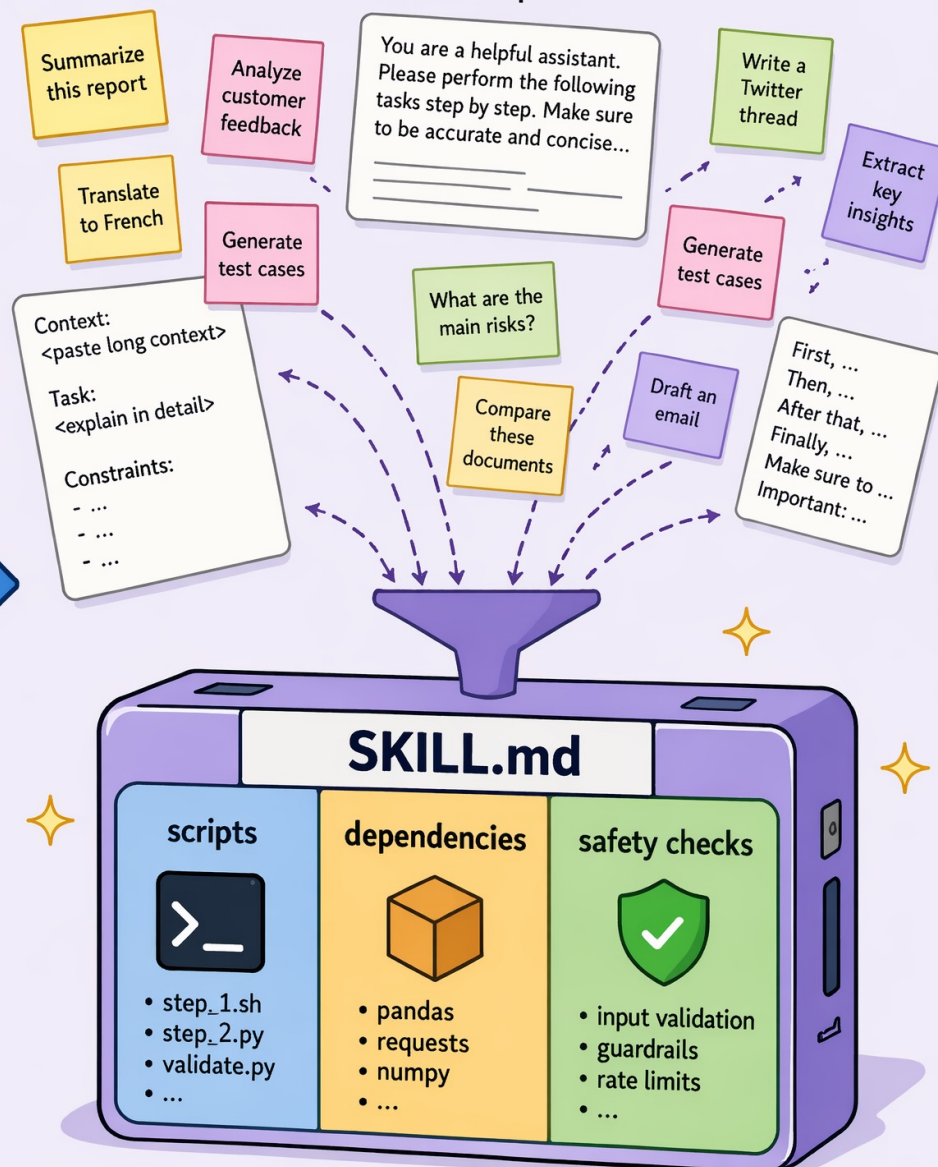

Every task feels new.
Reinvent the procedure every time.

Ephemeral. Unorganized. Hard to reuse.
High cognitive load. Easy to forget.

2 Skill Packaging

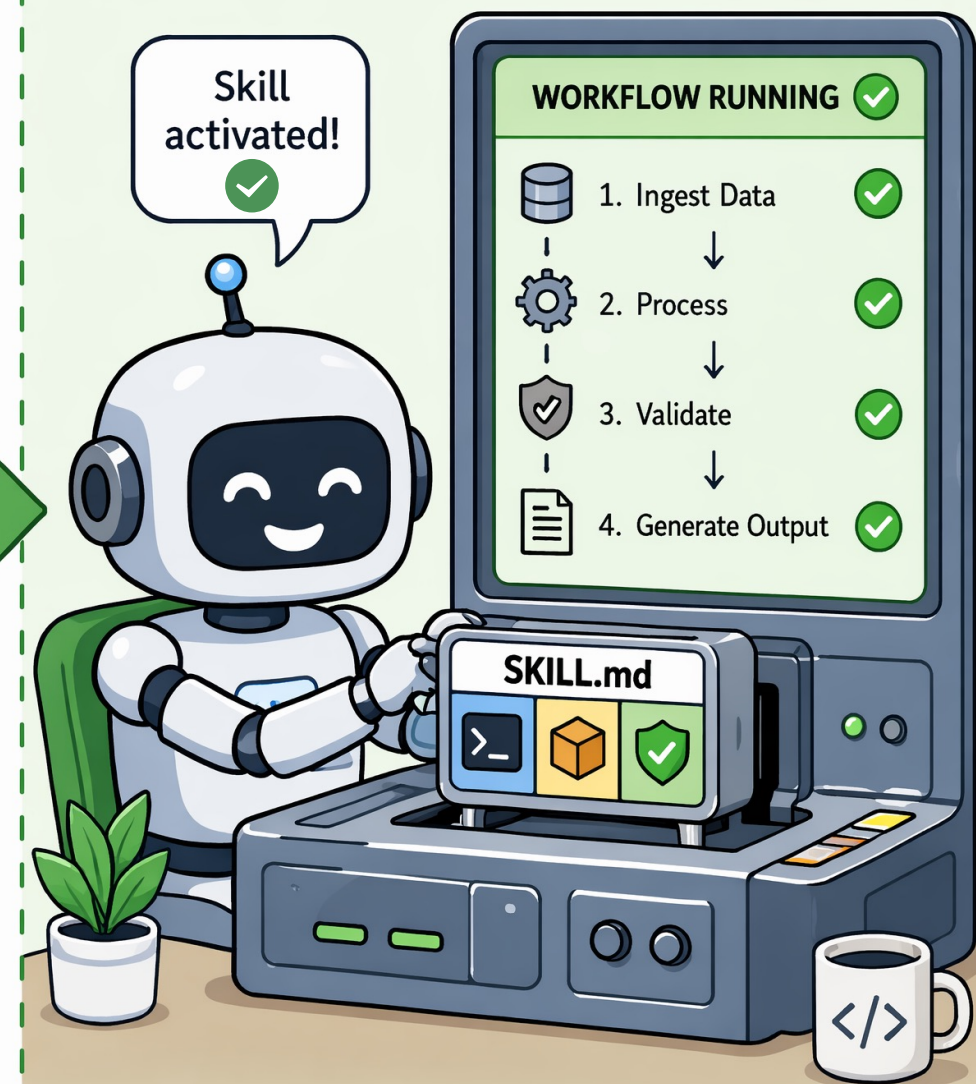

Organize, standardize, and package
into a reusable procedure.

Structured. Standardized. Portable.
Easy to share, version, and improve.

3 Composable Digital Worker

Plug in the skill and get work done.
Reliable, repeatable, and scalable.

Reusable. Composable. Reliable.
Focus on outcomes, not reinventing steps.

From chaos
(ad-hoc prompts)

To clarity
(packaged skills)

To velocity
(composable worker)
